

**Nominee:** Campervan North America, LLC

**Award:** Tourism Ambassador

**Statement of Nomination:**

In 2010, Billings-based Campervan North America (CVNA) really began attracting customers from all over the world to beautiful Montana. CVNA offers something unique — fuel-efficient, nimble, comfy campervans (NOT RVs!) for rent. Campervan rental is huge in Europe and NZ, Australia, but, until CVNA, relatively unknown here. Now, thousands of customers later, because of CVNA (and its founder, Bob Swan), people from all over the US and the world are discovering first-hand the wonders and beauty of Montana. CVNA also prides itself on its environmental advocacy. CVNA's campervan fleet is super-efficient, averaging over 20mpg per camper. All rentable accessories must meet CVNA's green standards and CVNA is a proud member of 1% for the Planet, an environmentally-focused group of companies with a global impact. Montana-based, Montana-beautiful, Montana-friendly — CVNA should be a powerful contender as Montana's Tourism Ambassador.
