

Nominee: Mineral County—Next Exit History

Award: Grant Project of the Year

Statement of Nomination:

This grant was a highly coordinated effort among over 50 individual locations in Mineral County. Headed by the Mineral County Historical Society, this app will help to navigate visitors through an relatively unknown corridor of northwest Montana. With features like video testimonials, downloadable offline audio tours, maps, historical documents and pictures, this app/website combination will make Mineral County more intriguing to visitors than it ever has been. Easy navigation, concise, easily digestible information, and authentic accounts of the establishment of this place makes this grant project an all-around home run.
